INTERNSHIP/ EXPERIENCE

Web Developer & Graphics Designer Internship —

June – June , 2023

NVC & Associates, Bengaluru

- Designed posters, banners, and social media creatives using Canva, Adobe Photoshop, and Adobe Illustrator.
- Utilized various online design tools to enhance creativity, efficiency, and design quality.
- Assisted in creating promotional and branding materials while following established design guidelines.
- Gained basic exposure to web designing/development, including simple layouts and styling concepts.
- Collaborated with team members to convert ideas into visually appealing designs and meet project deadlines.

TempleConnect - Digital Temple Platform —

Sri Veeranjaneya Swamy Temple, Bengaluru [TempleConnect](#)

July, 2025

- Designed and developed a full-stack temple website using Flask for backend services and HTML, CSS, and basic frontend components for the user interface.
- Implemented seva booking and online donation functionality with Razorpay payment gateway integration for secure transactions.
- Used MongoDB for storing and managing devotee data, seva bookings, and donation records.
- Deployed the application on Render, ensuring reliable hosting and smooth application performance.
- Built an admin dashboard to verify and manage sevas and donations, along with basic data analysis and reporting features.

PROJECTS

IMIP — Intelligent Meeting Insight's Platform

Developed and implemented a modern full-stack web application using React (Vite) for the frontend and FastAPI for backend services, with MongoDB for data storage and OpenAI API integration for intelligent features.

TempleConnect — Service Management Website

Designed and implemented a temple service management website using Python, HTML, CSS, and MongoDB, enabling seva management, online donations, and administrative verification.

Hotel Room Booking System

Built a dynamic hotel room booking system using PHP, HTML, CSS, and MySQL, allowing users to check availability, book rooms, and manage reservations efficiently.
